🎓 Maths Specialist | LSE | BA in Mathematics

I hold a BA in Mathematics from the London School of Economics and an MSc in Physics from Durham University. With 20 years of experience, I specialise in TMUA and other admissions tests, as well as A-Level Maths and Physics. My goal is to help students excel in challenging exams and reach their academic goals.

Teaches: TMUA A-Level Maths A-Level Physics

Curriculum: TMUA A-Level

Qualifications

London School of Economics: BA in Mathematics
(1998–2001)

Durham University: MSc in Physics (2001–2003)

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

With two decades of experience, I have guided countless students through mathematics and admissions tests, building their confidence in complex problem-solving. Many of my students have successfully navigated exams like the TMUA, MAT, and STEP, often progressing to top universities in the UK. My approach to teaching reflects my passion for maths, and I encourage students to embrace the challenges these tests offer.

My experience also extends to working with A-Level and GCSE students, ensuring they understand the intricacies of mathematics and physics. I have supported students across various exam boards, giving them a solid foundation for their exams. My familiarity with rigorous academic expectations allows me to provide targeted support that aligns with each student's academic path.

I also prepare students for Oxbridge admissions, focusing on the problem-solving skills essential for success. With my background, I offer strategic guidance on how to excel in interview scenarios and competitive assessments, equipping my students to perform at their best in any academic challenge they face.
